Recycling in Montgomery County is Easy!

Why recycle? Making new things from recycled materials saves money, energy, and the Earth's natural resources. To make it easy for you and your family to recycle, your property has recycling containers that are typically located in the same spot where you drop off your trash.

There are five kinds of materials that are recycled at your apartment or condominium.

1 Commingled Materials

Glass Bottles and Jars

Steel/Tin and Aerosol Cans

Aluminum Cans and Foil Products

Plastic Bottles

Plastic Containers, Jars, Tubs and Lids

Plastic Flower Pots, Buckets and Pails

2 Mixed Paper

Clean, Dry White Paper, Colored Paper, and Cards

Newspapers

Magazines and Comic Books

Unwanted Mail and Envelopes

Coloring Books, Paperback Books, and Phone Books

Cardboard and Snack Food Boxes

Milk/Juice Cartons and Frozen Food Boxes

3 Scrap Metal

Old Appliances, Bicycles, Pots and Pans, Metal Lamps, Bed Frames and Other Household Metal Items

4 Yard Trim

Leaves, Grass, Brush and Garden Trimmings

5 Christmas Trees and Wreaths

Did You Know?

The energy saved each year by recycled cans could light the city of Washington, D.C. for 3.7 years.

About 1 billion trees worth of paper are thrown away every year in the U.S.

An average glass bottle contains over 25% recycled glass, and it can be recycled over and over. Glass never wears out.

Half of all polyester carpet made in the U.S. uses recycled plastic bottles.

A Busy Morning in the Kitchen!

It's amazing how many things can be recycled in your home! Can you find all of the recyclable commingled materials and mixed paper in this picture?

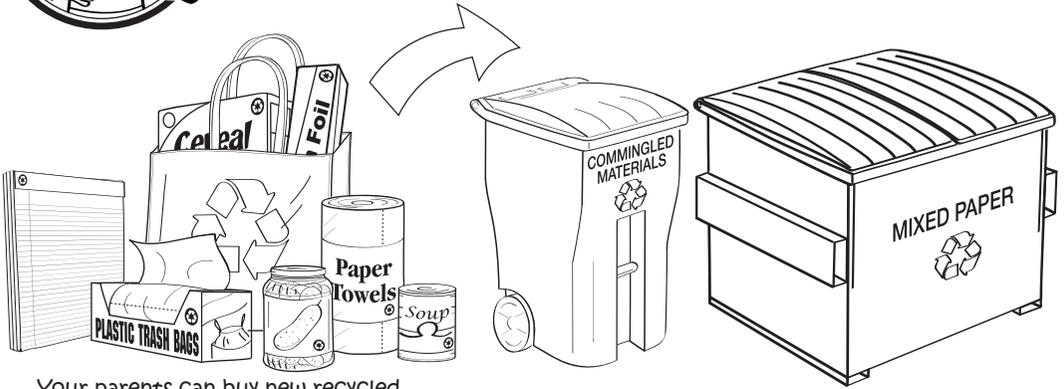

(Hint: There are 27 different items!)

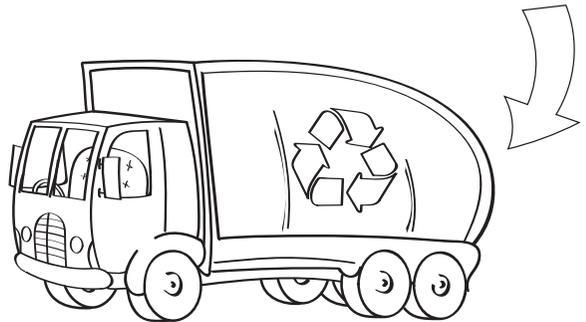

What happens to recyclable materials after they are picked up?

Bring life to recycling by coloring in the recycling process.

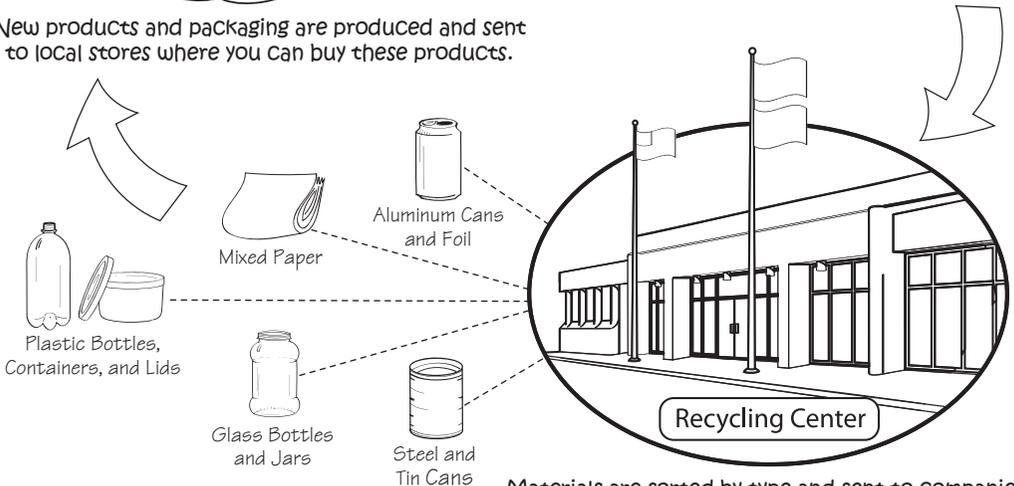

Your parents can buy new recycled items at the store.

You place empty and Clean recyclable materials in the Commingled Materials and Mixed Paper recycling containers located at your apartment or condominium.

A recycling collection company transports the materials to a recycling center.

New products and packaging are produced and sent to local stores where you can buy these products.

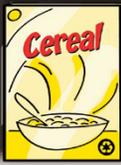

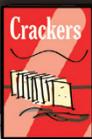

Materials are sorted by type and sent to companies that will make them into new products and packaging.

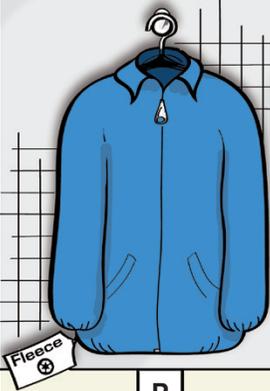

Buying Recycled Products - Closing the Loop

All our hard work to recycle will be wasted if we don't remember to buy new products made from our recycled materials. So when you are at the store with your parents, look for this symbol  on a package. It means that item or its packaging was made with recycled material.

Decode the secret message!

Each item on the store shelf below has a letter below it. Circle the letters below the items that have a  symbol on them to decode the message.
